Romanian Occupation Definitions - English Translations

Compiled by: Paula Zieselman & Terry Lasky

The following list of occupations in the Romanian language was compiled by Paula Zieselman and Terry Lasky, with assistance from Susanna Vendel, Marcel Bratu, and Prof. Ladislau Gyemant. This list was compiled in the course of entering the data for the *Tabele Barbitolor* (1942 census of Jewish males), which now resides in the [JewishGen Romania Database](#).

Some of these are archaic or obscure terms, no longer current. Romanian diacritics have not been used. Please note that the Romanian terms have been entered exactly as the clerks wrote them in 1942. They are therefore subject to any misspellings, etc., that they might have used at that time. When the correct spelling is known it is also shown following a slash (/).
